

THE OG DIFFERENCE

WE CHANGE LIVES

We impact industries, clients, individuals, and their families. Our business facilitates economic flow and helps organizations complete strategic projects, build new products, and grow new impacting segments.

WE OFFER A VITAL CANDIDATE EXPERIENCE

Not only do we treat our candidates with dignity and respect, but we also garner a deep understanding of what drives their decision-making. Many of our candidates become our clients. Over 1/3 of Options Group candidates that we have placed since 1994 are still at the firm where we placed them.

WE ARE LONG TERM PARTNERS

The majority of Options Group clients have done business with our firm for over 5 years. We have built desks and teams from the ground up. Our success as a firm is directly tied to the success of our clients – something that cannot be said for our competitors.

WE DEVELOP TECHNOLOGY THAT NO OTHER COMPETITOR HAS

Our commitment to technology places us at the forefront of executive search. No other recruitment firm has the ability to quickly capitalize on their information flows to produce value added insight like us. From OGAxess, to OGiP, to OGWu we have dedicated ourselves to building and harnessing the power of technology vs. fear of change.

WE KEEP UP WITH MACRO HUMAN-CAPITAL & ECONOMIC DEVELOPMENTS

Our recruiters have industry specific expertise and are keenly aware of developments in their primary practice areas. Even more so, Options Group's global reach and niche financial-services only focus allows the firm to collate elusive information flowing seamlessly from consultant to consultant (in a manner unmatched by any other firm).

WE LOVE WHAT WE DO

Our team is second to none. Recruiters at OG are driven and focused - but even more so - they are extremely passionate about what they do. This creates a dynamic office environment, which in turn creates happy clients, which then leads to the well deserved reward of more revenue.

WE ARE ALWAYS GROWING

Options Group is committed to growing our firm in line with our goals for Vision 2020. This includes not only the acquisition of new businesses and the development of new offices, but also the creation of OGiQ two years ago.

WE WANT OUR PEOPLE TO GROW

Options Group is ramping up professional development through OG University, and is committed to investing in the future. For Options Group, the future is its employees!

WE HAVE ONE OF THE TOP INTELLIGENCE UNITS (OGIQ)

For nearly 25 years Options Group has been collected, collating, and adding data to our system. As we continue to analyze and disseminate this information we will only become an even greater threat to our competitors. OGiQ is Options Group's Intelligence Unit and allow us to help our clients take uncertainty out of their business decisions.
